INDESIGN DESKTOP OPERATOR, Aptara Learning Pvt Ltd – India

May 2012 – November 2016

As an InDesign Desktop Operator, I effectively managed and produced visually compelling documents and layouts for educational books for Pearson and McGraw Hill using Adobe InDesign software. Responsibilities included collaborating closely with design teams and clients to understand project requirements, composition, editing, ensuring accurate implementation of branding guidelines, and optimizing layout

designs for print and digital outputs.

Career Gap

From December 2016, I took a career hiatus to prioritize family responsibilities. During this period, I dedicated my time to ensuring their well-being and managing household affairs. This experience reinforced my organizational skills and ability to multitask effectively under pressure. I am now eager to return to the workforce with a renewed commitment and leverage my skills in Frontend Development.
